## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claim 1-22 and 26-32, drawn to Multiplexing, classified in class 370, subclass 535-545.
  - II. Claim 23-25, 33-43, and 61-63 drawn to Optical Communication via optical multiplexing, classified in class 359, subclass 115-121.
  - III. Claims 44-60 and 64-68, drawn to Zoned Cellular Systems, classified in class 455, subclass 422.1, 560, 561, 562.1.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I, II, and III has separate utility such as a wired Multiplex Communications system, an Optical Communications system, or a General Cellular System Architecture. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and the search required for the Groups is different, restriction for examination purposes as indicated is proper.
